ARE NOT IN MUCH DANGER.

Will Have to Cut Out French and German Tour Because of War.

Much interest and some anxiety is ple who sailed from New York on sportsmen. July 9. on the steamship Carpathia, ior a European tour. It is probable that they are now in the war-troubled zone. Mrs. Sidney G. Clay and daughter, Miss Alice Rogers Clay, Mr. and Mrs. Jas. H. Thompson and 'son, sailed on the Carpathia, the same steamer which carried on its passenger list the Lexington Herald's' contest winners. The party has been beard from indirectly, being in Naples, Italy. On the voyage out of New York they ran through three days of fog, the captain remaining on the bridge continuously. The only one of the party affected by sea sickness was Mr. James Thompson, Sr. Mr. Thompson, Jr., took part in all games aboard the ship, and won several of the sporting events. Mrs. Clay was ill for a short time, but soon recovered. They wrote that their trip to Germany would be sidetracked owing to the state of war prevailing there. Miss Fannie Johnson, for a summer trip, and intended to re- its part in the struggle. turn to Berlin for a year's stay, but difficulty in obtaining funds now their to Westphalia, Germany, to spend a town of Longwy. month in revisiting the scenes of his Teuton country, and it is probable he Franco-Prussian war. will have some difficulty in returning. EOURBON CROPS BADLY IN NEED OF RAIN.

There is little of interest to engage the attention in the agricultural districts these mid-summer days. All lines of business are dull, and every one seems to be taking a rest which will insure renewed activity with the approach of autumn.

More rain is badly needed, though hard rains fell in some sections of the county last Sunday. Not a drop has fallen since, however, and some parts of the county had a very little rain

There is still a scarcity of fresh vegetables, gardens having literally dried up, and consumers must depend upon imported fod stuffs to supply their tables.

The corn shows some improvement. Peaches are coming in plentifully, though they are small. Prices are going higher on vegetables, fruits, chickens and milk.

The coming of August marks the opening of the hunting season, but doves are scarce, at least in this locality. Two years' protection of this deliciuos table bird would insure a larger number for the sportsman's enjoyment. It is said that squirrels and rabbits are abundant. The presence of so many squirrles is rather surprising, for these little animals, like other game in this part of the State, have been diminishing. If the season were closed to them as to doves for a being manifested here among the rel-atives and friends of the Paris peo-would be much more attractive to

**ELECTION PASSED** VERY QUIETLY.

Hon. Claude M. Thomas Defeated After Putting Up a Game Fight.

With nine counties still unheard from and reports from a number of others incomplete, returns, received up to last midnight indicated the nomination of former Governor J.-C. W. Beckham over Congressman A. O. Stanley by a plurality of 2,587 in Saturday's Democratic long-term Senatorial primary. The missing counties were for the most part of the mountain districts—principally the Tenth and Eleventh—the returns from which are generally the last to arrive.

Returns received from 111 out of 120 counties of the State gave the following totals: Beckham, 60,215; Stanley, 57,628; McCreary, 17,467. Thus counties reporting since Saturday midnight served to swell Mr. Beckham's plurality by 965.

Though Stanley clings desperately to the bare hope that the final count may give him a scant margin, belated returns which continue to come in to-day only strengthen Beckham's claims to have carried the State by 12,000 majority.

Beckham has carried 93 of the 120 tricts have given him a majority.

> Beckham's battle cry, "right the wrong," referring to his former Senatorial ambitions and their denial at the hands of a Democratic Legislature, is believed to have been a big factor in his victory.

Johnson N. Camden's tremendous majority throughout the State for the short term nomination is an outstanding feature of the primary. Camden swept the entire State by a vote that turns can tell the story.

> Bullitt made a runaway of the short term nomination.

The Progressive vote in the State was so light that few reports of it were made. Burton Vance, of Louisville, had a comfortable lead over his opponent, Judge George W. Jolly, of Owensboro.

In the Democratic races the following winners and their majorities in round figures are given:

First District-Barkley, Dem., 2,700. Second District-Kincheloe, Dem., Third District-Thomas, Dem., 2,

Fourth District-Johnson, Dem.,

Fifth District-Sherley, Dem., 9,200. Sixth District-No contest. Seventh District-Cantrill, Dem., 6,

Eighth District—No contest. Ninth District-F-sids, Dem., 6,000. Tenth District-No contest. Eleventh District-Powers, Rep.

Aside from the Powers race in the Eleventh, there were only three other Republican Congressional races in the State. Bristow won by default in the Seventh; Ball won in the Fourth and Ireland in the Ninth. Gardner, Progressive, won in the Fifth by 1,000

BOURBON COUNTY.

The election in Paris and Bourbon County passed off quietly, it being the most orderly primary in the history of the county.

Complete returns in most of the races show the following results: Senator for long term: Beckham 1, 280; McCreary, 224; Stanley, 528.
Beckham over Stanley 752, over Mc-Creary 1,036, over both 508.

For Congress: Thomas, 1,278; Cantrill, 833. Thomas' majority, 445. For short term with four precincts out of twenty missing gives Camden, 1,259; Smith, 50; Young, 69. Full returns will show Camden's ma-

As a result of this it is expected that thousands of light them. weight hogs will be sent from the stockyards to the country for feeding and fattening and that the country's total production of pork will be greatly increased thereby.

The new regulations also withdraw all permission for the nse of nicotine solutions, coal-tar creosote, and cresol preparations in the official dipping of cattle and sheep for scabies. This step has been made necessary by the difficulty experienced in keeping baths of this nature at a strength sufficient to climinate all danger of disease without having them so strong as to be injurious to the animals themselves. #### GET INCREASED SALARIES.

Postmaster R. K. McCarney has received advices from the Postoffice Department at Washington notifying him of the raise in salaries allowed to the Rural Mail Carriers working out of the Paris Postoffice, effective July 1, 1914.

The Rural Free Delivery system was established in Bourbon County twelve years ago, and, at that time, the carriers assigned to Routes 1, 4 and 7 received the minimum, an annual salary of \$600. Since then, however, the salaries have been steadily raised until they were made uniform and placed at \$1,100.

Under the new arrangement the salaries are to be based on the actual number of miles covered by the carriers and the number of pieces of mail delivered by them. Effective July 1 the new salary schedule for the carriers in the local office was fixed

#### WE MISS THE OLD FAIRS.

At this time of the year, the thoughts of the old timers always revert to the days when the Old Bourbon County Fair Association was in its glory. Formerly no county in the State had a bigger or better exhibitions than Bourbon, and we often look back with regret to those times when we had splendid horse rings and trotting matches at the old riage Painter, who has been employ-ed by Holiday & Sttle, and also their memory. It does look like a county memory. It does look like a county of the size of Bourbon should not be without a Fair Association, and we hope the time will come when an induential body of men will again take an interest in an enterprise of this

JOS. S. HEAD, JR., ARRESTED.

LOUISVILLE KY., July 21.—Jos- S. Head, Jr., cashier of the Citizens' Bank and Trust Company, of Ashland, Ky., which is now in the hands of the State Banking Commissioner for liquidation of its affairs, was ar-rested in the office of Sheriff Chas. J. Cronan, yesterday afternoon, where he went to give himself up after hearing that a warrant for his arrest was in the hands of the local Sheriff.

The warrant was issued by the police judge of Ashland, and charges Head with making a false statement of the bank's affairs to the Department of Banking of the State Banking Commission in his last quarterly statement. Mr. Head was admitted to bail by Judge William M. Smith, and his bond fixed at \$1,500 for his appearance before the Ashland police judge August 10.

Owing to the fact that the charge against Mr. Head is a felony, and the warrant ordered the Sheriff to return him to Ashland, it was not within the power of the Sheriff to fix or accept bail. Mr. Head's wife is dangerously ill at St. Joseph's Inlrmary, and as he did not wish to return to Ashland last night or to enter jail, he secured the services of Attorney Edward P. Humphrey, and habeas corpus proceedings were instituted at once. Judge Smith was found and went to the court house, where he heard a

statement of the case. Attorney Humphrey claimed Mr. Head had the right to be admitted to bail. He said the warrant did not specify when his client should be recame effective July 1, 1914. These turned to Ashland, but asked Judge changes are destined by the Depart-Smith to fix the time. The Judge said he would admit Head to bail and as consistently as you do for your local business.

HAS YOUR WHEAT BEEN IN-FESTED WITH HESSIAN FLY?

THE DIFFERENCE BETWEEN VOCATION AND JOB. "Has your wheat been infested with the Hessian Fly this season?" is a question that the U.S. Department of tional guidance can render is to analyze our industries and train our youth to distinguish between a "vocation and a job," says the Federal Bureau Agriculture is now asking farmers. The information is desired that there may be general co-operation between all concerned in reducing the devastaof Education in a statement on vocations of the fly. There is every in-dication that the pest will be unusual-

Every wheat grower in the country who suspects that his crop has group of 101 boys between 14 and 16 years of age in New York City a vocational survey including an analysis Entomology at Washington, D. C., with a request fo ra question blank. The questions to be answered are with an opportunity for advancement merely as to whether the wheat or improvement. The other 96 are in the wheat grower's crop was infested merely as to whether the wheat at certain seasons. The farmer will be asked to forward some of the infested wheat plants for examination, schools to the business interests of postage to be paid by the Governthe community shows a considerable ment. He will also be asked to give per centage thrown into the discord his name, address; and the nearest

The Department is co-operating with the various State Experiment Stations in this campaiggn aganst the Hessian Fly, and in some cases the infested straw will be sent by the farmer to local stations for examination. The wheat grower can learn just where his sample of straw is to be sent when he sends his name to the Department, indicating his willingness to send the sample. The Department encourages the sender not to be afraid to forward too much of the straw, even though it has to be sent by parcel post. The upper part of the straw need not be sent, but enough above the ground should be included to get the insect in what is known as the "flaxseed" stage when the larva is incased in a hard, brown skin and somewhat resembles a flax seed. The insects will remain for a considerable time in the "flaxseed" state during a drought and will only emerge after rains have mois) ned the soil. Dry weather in the late summer tends to keep the insect in that stage, which is a fact of special importance in the North where the wheat must be sown early enough to enable the plants to stand the winter. Probably no other insect causes

more real damage to the wheat crop in the United States than the Hessian Fly, although there are certain years when the chinch bug exceeds the fly in its devastations.

During the seasons when the fly is especially abundant hundreds of thousands of acres of wheat may be either totally destroyed or so badly injured as to reduce the yield 50 to 75 per cent. The monetary losses run far up into the millions.

A number of years ago there was in Kansas general co-operation between grain dealers, millers and farmers to restrict the ravages of this dangerous insect. According to their own estimate, over a million dollars were saved by prompt and thorough measures. This year the Department hopes to secure general co-operation throughout the country in combatting the pest. There are indications that its ravages may be severe. Already in Iowa and Oklahoma there have been threatening outbreaks of the in-

Not only are Federal and State organizations of the Government cooperating in this campaign, but others, such as the National Millers' Federation are working to secure better control over the Hessian Fly. The individual wheat grower is asked to send his samples of infested straw before the middle of September, and sooner if possible, as after that, the fly will have hatched and have entered into the wheat.

Late sowing of the seed and burn- 131 Atlanta, Ga., Daily...... ing of the stubble when not seeded to grass or clover, are the only measures known to date that are effective Street, in Paris, on Wednesday night, in controling the Hessian Fly—that is one four-year-old sorrel gelding, white for winter-wheat growing sections. face, two white hind feet. #### THE PLEASURE OF CAMPING.

Our people are just waking up to

the pleasures of camping out on the banks of the classic Stoner. A number of parties have picniced this summer at "Gass Springs" and "The Ford," and all have thoroughly enjoyed their outings. An outing of this character is much more healithful and restful, and infinitely cheaper member this offer is positively not than the customary visit to the sumgood after August 31, 1914. than the customary visit to the summer resort, and the campers invariably come home strengthened and tanned, refreshed and filled with new above offer within the next THIRTY life, and ready for the tasks before them. No stream contains better opportunities for this purpose, or has more classic and beautiful secenery on its banks, than "Beautiful Stoner," and we are indeed glad to note the growing prevalence of local picnicing parties on its banks.

Mrs. Rice is perhaps the most noted woman evangelist in the known world. At the tender age of fourteen, Paris cemetery. when most young girls are thinking of more frivolous things she began her work, taking up the city of New York as her starting point. In a few months she became famous. For nine years she did slum work in Greater New York, under the administrations of four Mayors, spreading cheer and comfort to inmates of the slums, to prisoners in the jails, State prisons, county infirmaries, and speaking sometimes three times a night for months on Broadway, New York, to crowds estimated at from ten to fifteen thousand. She has visited every portion of the United States, telling, preaching and living "practical Christianity" to thousands and thousands of people.

Mrs. Rice made her first address to the people of Paris on Saturday night, to a good sized audience, many of whom were attracted merely out of curiosity, but all of whom, fascinated by the evangelist's magic personality, remained to the end, wishing for more. On Sunday night at the same spot the audience was trebeled, the news having spread to all parts of the

Mrs. Rice is a wonderfully impressive speaker, and the first thing apparent to the auditor is her intense sincerity. She has a habit of clothing unpleasant truths in words that burn and convince. There is nothing that will advertise your State and county more than a good tobacco nouncement: "Let us sing hymn No. 341." The tired young woman awoke Tobacco Department of the State just in time to hear the number called, yawned, and, to the consternation of her escort, who had been too much absorbed in the sermon to notice his companion's lapse into slumberland, said: "Line's busy; call again." Explanations were made and accepted. and all went along as merrily as the proverbial marriage bell.

While we are in the telephone field we might as well give this one: Several days ago a popular young boy of this city accepted a position with this same telephone company. The honey crop throughout Garrard and Lincoln counties is proving unsatisfactory to bee handlers, the lack of white clover blossoms being in part the cause of the deficiency. -There was some disappointment experienced in the Millersburg Chautauqua Thursday afternoon when it was learned that Maymie Wynne Cox, the delinerator of negro dialect and banjo lady, could not be present. An improvised program was arranged, made up partly of local talent, and a lecture on "Home" by Mr. Fish, manager of the Flemingsburg Chautauqua, which was well received. In the evening a local prelude was made up of Misses Alma Duke Jones, pianist, Lucy Jones, vocalist and Annette Hurst, reader, which was well received, and each young lady received numerous applause. All were amply rewarded for the time occupied and in the o Issof Maymie Wynne Cox when Hon. Alf Taylor, speaker of the evening, was introduced, taking for his subject, "The World's Greatest Question." Mr. Taylor is perhaps the most profound thinker that ever stood upon the Millersburg platform. Every utterance abounds in beautiful language. His thought is deep.

-The Chautauqua was continued Friday afternoon at 2:30 by the Crescent Club, a quartette of four young ladies. These ladies gave a delightful, light parlor entertainment. The violinist was good and played some artistic numbers in a creditable manner. The vocalist and reader did not come up to the full measure of the Hon. Dr. Crossfield did not come into our midst as a stranger. He preached a most brilliant discourse. On Sunday afternoon beginning at 2:30 the Intrnational Male Quartette gave a full concert. They are also among the good numbers of the Chautaqua. They responded to a number of encores and were exceed-

ingly liberal with their program. There are a large number of visitors, but owing to lack of space we are obliged to omit.

Ex-Attorney-General John H. Atwood, of Kansas, addressed the large assemblage at the Chautauqua Sunday evening at eight o'clock, taking for his subject, "The Unrest of the Times." He was by far the most forceful speaker on the Chautauqua program, and his address won high praise from his auditors. The musical program rendered by the National Quartette was a distinct feature of the program, which was thoroughly enjoyed by all.

#### THAVIU'S BAND GIVES DELIGHTFUL CONCERT.

Those who attended the concert given at the Paris Fair Grounds Sunday afternoon by the Thaviu Band were given a genuine musical treat. The band rendered a program of classic and popular selections that was greatly enjoyed and appreciated by a large crowd. The band is a high-class musical organization. The vocal selections by the Thaviu Popular Singers was one of the most enjoyable features of the excellent program and the responded to several encores. The following program was
